Interests

CHESS

Adept at problem-solving and critical thinking through the complex game dynamics of chess."

CRICKET

The discipline, dedication, and strategic mindset developed through cricket translate seamlessly into a professional context.

ASTRONOMY

I have cultivated a deep interest in the study of celestial bodies and the vastness of the universe. Self-driven learning has equipped me with a solid foundation in astronomical concepts, celestial mechanics, and observational techniques. This interest reflects my commitment to continuous learning, analytical thinking, and an ability to grasp complex scientific principles.
